Neither the recipe nor the materials are particularly expensive, but you'll need to have the appropriate crafting profession leveled to craft it. You don't need to get ascended gear unless you want to run high-level fractals (in which case you need the infusion slots). Guild Commendations If you're in an active guild that does guild missions, the Guild Commendation Trader sells the same ascended accessories as the Laurel Merchant, but for 5 gold and 12 guild commendations each. Karma Each of the six temples in Orr has a meta event chain. Some crafted runes and sigils like can be expensive, but unfortunately there's no better way to obtain them (other than obtaining the materials and crafting them yourself). They drop from fractals, and can be combined by an Artificer or INFUZ-5959 into higher tiers of agony infusions. This stat-selectable backpiece provides all Core and Path of Fire stats. Prototype Fractal Capacitor As previously mentioned, BUY-4373 sells a Berserker's, Cavalier's, Knight's, or Rabid backpiece for 1,350 fractal relics, which can be upgraded to an ascended version in the Mystic Forge. Exotic or Ascended? Living World Achievements Since Heart of Thorns, most Living World episodes have had at least one achievement that provides stat-selectable exotic armor: Living World Season 3 Living World Season 4 Icebrood Saga Whisper in the Dark: head No Quarter: multiple head and backpieces Crafting is an expensive but reliable way to get exotic equipment. Guild Backpacks If you're in an active guild that does guild missions, you can buy exotic backpieces with Berserker's, Magi's, or Soldier's stats from the Guild Commendation Trader for 5 gold and 5 guild commendations each. If you're new to dungeons, I recommend using a LFG description along the lines of "new player LF all paths, help appreciated". Raise the Banners You get a stat-selectable ascended backpiece for completing each Raise the Banners collection in Path of Fire. Hearts and Minds: Provides a piece of Wanderer's armor. Beetle Incubator If you have Living World Season 4 Episode 3 ("Forearmed is Forewarned"), you can buy an exotic backpiece from Kadir in the Domain of Kourna for some karma and map currency. Table of Stats and Prefixes For the vast majority of equipment, stat combinations are only accessible if they are part of the core set, or you own the expansion they are associated with. However, it only offers a 12.5% damage increase over exotic gear. Agony stat infusions provide the best of both worlds but are extremely expensive and most players don't bother with them. That's a mere 3 days of T1 fractal dailies, or 1 day of T3/T4 fractal dailies if you already have a geared character. In practice this boils down to one of these runes: : Auric Basin : Dragon's Stand Decide whether you enjoy farming PvE or WvW more, then farm the appropriate currency and buy them from the vendor. These provide stat-selectable armor pieces: These provide stat-selectable weapons: You can also get certain Core/Release stats very easily through the dungeon reward tracks, which provide 3 weapons and one piece of armor: Ascalonian Catacombs Dungeon Track (Rabid, Rampager's) Caudecus's Manor Dungeon Track (Rabid, Rampager's) Sorrow's Embrace Dungeon Track (Rabid, Rampager's) Caudecus's Manor Dungeon Track (Rabid, Rampager's) Sorrow's Embrace Dungeon Track (Rabid, Rampager's) Caudecus's Manor Dungeon Track (Rabid, Rampager's) Sorrow's Embrace Dungeon Track (Rabid, Ra Track (Carrion, Knight's, or Soldier's) Citadel of Flame Dungeon Track (Berserker's, Dire, or Rampager's) Honor of the Waves Dungeon Track (Berserker's, Carrion, or Rampager's) The Ruined City of Arah Dungeon Track (Berserker's, Carrion, or Rabid) If you have any of the Living World Season 3-5 episodes, you can get stat-selectable gear from their corresponding reward tracks. The same applies to accessories. Ascended armor and weapons can be reforged in the Mystic Forge to change their stats. If you don't count trinkets it will cost less than 10 gold. Feel free to mix and match gearing methods in a way that works for you. Heart of Thorns stats were added during Heart of Thorns and Living World Season 3. You're Reading a Free Preview Pages 21 to 22 are not shown in this preview, Runes and signils introduced in Path of Fire, such as . can also be obtained for Proofs of Heroics from the Heroics Notary, Each explorable path has a daily reward of ~100 unique tokens which you can cash in for exotic armor and weapons at the Dungeon Armor and Weapons vendor. Bitter Harvest: Provides a piece of Trailblazer's, Viper's, or Wanderer's armor. One important difference between exotic and ascended crafting is that ascended crafting requires several time-gated materials: Lump of Mithrillum, Glob of Elder Spirit Residue, Spool of Thick Elonian Cord, and Spool of Silk Weaving Thread can only be crafted once a day. To do this, combine the ascended piece with 5 Globs of Ectoplasm, an Anthology of Heroes (bought from Miyani), and an exotic inscription/insignia with the desired stats. You can have the weapon be a dagger, greatsword, scepter, shield, or sword. Be sure to remove any expensive infusions using an Infusion Extraction Device before reforging them. Rings cost 35 laurels, which is pretty cheap. Agony Infusions that also provide +5 to a stat. Knight of the Thorn If you complete the Heart of Thorns story and the Knight of the Thorn questline, you can get a stat-selectable ascended weapon with Core/Extended, or Heart of Thorns stats. You can also buy exotic weapons from this vendor, but this is not recommended as the Trading Post is cheaper. Core/Extended, or Heart of Thorns stats are similar to Core/Extended stats but only available on certain ascended trinkets. It's relatively cheap and easy to obtain, as a full set of Berserker's exotic gear only costs ~35 gold on the Trading Post (~10 gold if you don't count trinkets). These are the cheapest stat infusions available, but only provide +4 to a stat rather than +5. Amulets only cost 30 laurels, making this the cheapest way to get an ascended amulet. This means you don't need to spend gold infusing your backpiece. This is the best method of getting ascended trinkets from vendors in fractals, PvP, or WvW. The +7 or +9 infusions are much more expensive and should only be considered by extremely dedicated fractal players. Vial of Salt Although this stat-selectable item is PvP-related, no PvP is required as the items involved in forging it can simple be bought off the trading post. Rings can also be attuned to add a second infusion slot, for a total of three infusion slots. To get Obsidian Shards to refine ascended materials, you can farm the Silverwastes, Heart of Thorns maps, Unbound Magic, or Volatile Magic. It's significantly more expensive than exotic gear, as a full set is timegated and costs 200-400 gold to craft. Agony infusions can also be bought and sold on the Trading Post. All Season 3 maps and some Season 4 maps have a unique farmable currency that can be used to buy stat-selectable ascended trinkets. This is primarily useful for obtaining Core/Extended, Heart of Thorns, or Path of Fire stats without jumping through hoops to get the relevant crafting materials and craftin of getting exotic gear for new players, but is limited by the achievements available. Elite Specialization. Note that the armor pieces are not salvageable, so you might not want to put expensive runes in them. This is by far the cheapest way to get ascended armor and weapons, but you have to invest time into learning to raid (or at least have friends that are willing to carry you through raids). Exotic gear is the second best tier. Vision Crystals and Lesser Vision Crystals must be crafted with ascended materials or obtained through daily login rewards. Last updated July 2020, No Quarter update Introduction This guide is an overview of the best ways to acquire gear for level 80 PvE and WvW content. Note that none of these are salvageable, so you might not want to put expensive runes in them. Crafting can get complicated for Core/Extended, Heart of Thorns, and Path of Fire stats, as the appropriate recipes are often locked behind map-specific currencies, and the materials may be expensive or account bound. Heart of Thorns Berserker: Sentinel's, Sinister, or Vigilant torch and head Chronomancer: Berserker's, Minstrel's staff and head Dragonhunter: Berserker's, Commander's, or Rampager's longbow and hands Druid: Cleric's, Minstrel's, or Soldier's staff and head Chronomancer: Berserker's, Minstrel's, or Soldier's staff and head Chronomancer: Berserker's, Commander's, or Rampager's longbow and hands Druid: Cleric's, Minstrel's, or Soldier's staff and head Chronomancer: Berserker's, Minstrel's, or Soldier's staff and head Chronomancer: Berserker's, Minstrel's, or Soldier's staff and head Chronomancer: Berserker's, Minstrel's staff and head Chronomancer: Berserker's staff and head Chr Nomad's staff and shoulders Herald: Celestial, Crusader's, or Trailblazer's shield and shoulders Reaper: Berserker's, Knight's, or Trailblazer's greatsword and head Scrapper: Berserker's, Knight's, or Trailblazer's greatsword and head Scrapper: Berserker's, Knight's, or Trailblazer's shield and shoulders Reaper: Berserker's, Knight's, or Trailblazer's greatsword and head Scrapper: Berserker's greatsword and head Scrapper: Berserker's greatsword and head Scrapper. Valkyrie rifle and shoulders Firebrand: Marshal's, Trailblazer's, or Viper's axe and head Holosmith: Berserker's, Marauder's, or Marshal's sword and shoulders Mirage: Carrion, Dire, or Rabid axe and head Renegade: Celestial, Grieving, or Viper's shortbow and head Scourge: Apothecary's, Carrion, or Viper's torch and shoulders Soulbeast: Marauder's, Marshal's, or Viper's dagger and hands Spellbreaker: Assassin's, Knight's, or Valkyrie dagger and shoulders Weaver: Celestial, Grieving, or Viper's sword and hands Mistward Collections You receive a set of exotic Berserker's, Knight's, or Rabid heavy armor for unlocking all Revenant specializations and completing the Mistward collections. 2. However, it does not have an upgrade slot and hence provides inferior stats compared to all other exotic armor and weapons with Core/Extended, Heart of Thorns, or Path of Fire stats. Runes & Sigils The vast majority of upgrade components can be bought off the Trading Post. It's assumed that you already have a fully leveled character and know what PvE or WvW build you're aiming for. The only alternative is to obtain the tokens from the appropriate PvP/WvW reward track; this will take much longer and is only really worth it if you hate dungeons. These infusions provide +5 to a stat and make you more effective against Guards, Lords, and Supervisors. However, it's a good long-term goal, especially if you plan to play WvW or do raids. They also offer the greatest increase in stats by far, making them the most efficient place to start. Most ascended equipment comes with one or two preset infusion slots. Adapted from User: Tanetris/So You Want To Gear a Character Note that all of these are Unique, so you can only get one ring and accessory from a single map. You can farm Living World Season 3/4 maps if you need ascended materials. A full set of weapons and armor will set you back 7-10 gold and 1200-1500 Badges of Honor. These stats require the Path of Fire expansion. Ascended gear is the best tier. Path of Fire and Living World Season 4. The trinkets are also not Unique, so you can equip multiple Mist Bands or Mist Talismans. This backpiece can be upgraded fairly cheaply to an ascended version in the Mystic Forge, making it a good choice for fractal players. PvE players who only plan to play raids can buy the relatively cheap +5 agony stat infusions. If you do fractals regularly, this is one of the cheapest ascended backpacks available include all of the stats available include all of the stats available include all of the stats available. The stats available include all of the stats available include all of the stats available. The stats available include all of the stats available include all of the stats available. Core/Release, Core/Extended, or Heart of Thorns head. These attribute combinations can be difficult to obtain if you only have access to core stats, but completing the collections from scratch involves running a lot of each dungeon, or its correspondind PvP/WvW reward track. There are 3 collections you can finish, each one providing an ascended backpiece. This will set you back 10-35 gold. However, you can bypass the time gate by buying the finished ingots, planks, squares, or bolts off the Trading Post (although this will usually cost you more money than making the ingredients yourself). Infusions To put infusions in your gear, you first need ascended equipment with infusion slots. HoT-Exclusive Runes and Sigils The remaining runes and sigils are account bound upgrades introduced in Heart of Thorns, and must either be bought with map-specific currency in PvE or with Proofs of Heroics Notary. Fractal Rings If you don't mind doing fractals, you can use Pristine Fractal Relics to buy ascended rings from BUY-2046 PFR. Prototype Fractal Capacitor You can buy an exotic Berserker's, Cavalier's, Knight's, or Rabid backpiece from BUY-4373 for 1,350 fractal relics. WvW Vendors The Weapon Master at each WvW spawn point sell; weapons and armor with Berserker's, Carrion, Cleric's, Knight's, Rabid, and Soldier's stats; amulets, accessories, and rings with Soldier's stats. The +5 Agony Infusions can also be bought for magnetite shards and gold from the Basic Magnetite shard Exchange Operative. Diviner's gear is a weird edge case. You can also buy Core/Hybrid stats, and duplicates of any Core/Extended trinket you received from Living World Season 2 story achievements. In Guild Wars 2 there is no gear treadmill. Note that these Mystic Forge recipes effectively destroy and recreate your ascended trinkets, so you'll lose any upgrades that were inside them. Accessories cost 40 laurels and 50 Globs of Ectoplasm, which is only worth it if you have lots of laurels and ectoplasm to spare. Use the wiki to find the appropriate crafting recipes and where they can be obtained from. Heart of Thorns The Jungle Provides: Provides a Berserker's, Or Shaman's head. Note that the upgraded ascended version will have the same stat combination as the exotic version. These cost agony infusions and integrated fractal matrices. Stat Infusions +4 Stat Infusions You can buy Mighty, Precise, Malign, Resilient, Vital, or Healing infusions from the Laurel Merchant for 5 laurels each. Dungeon Tokens If you have some experienced friends to run dungeons. You can increase the number of infusion slots in certain trinkets by infusing or attuning them: Rings and backpieces can be infused to add one infusion slots, for a total of two infusion slots. You'll need the appropriate level 400 crafting profession and the recipe for the items you want to craft. You can work around this in two ways: Get two differently-named rings or accessories that have the same stats. This is a relatively expensive way to obtain ascended trinkets, but the trinkets, but the trinkets, you might also have to spend more gold leveling your crafting or buying the recipes. For example, you can't equip two, even though you have two ring slots. Path of Fire Vendors As a last resort, you can use Trade Contracts and Pulsing Brandsparks to buy Path of Fire trinkets from various open world vendors. You're Reading a Free Preview Pages 39 to 48 are not shown in this preview. Instead, use the filters to find the cheapest level 80 exotic gear with the stats you need. Ascended trinkets (backpieces, amulets, accessories, rings) are relatively easy to get, so you can consider skipping exotic and going straight to ascended for the eappropriate level 500 crafting profession and the recipe for the items you want to craft. The items for the guestline can be bought off the Trading Post for about 50 gold, so it's an option if you have lots of gold to spare. Dungeon-Exclusive Runes and Sigils Some runes and sigils are exclusive to specific dungeons, including the following meta runes: : Ascalonian Catacombs : Twilight Arbor The best way to get these is to farm the appropriate dungeon for a few days, then buy them with dungeon tokens from the Dungeon Armor and Weapons vendor. Stat selectable equipment will allow you to choose from any of the combinations you have access to, with a few exceptions (such as specialization collections). Story/Achievement Rewards Some story steps and achievements provide exotic gear as a reward. Dungeon Collections Unlocking all the skins for each of the dungeons will unlock an ascended accessory with Assassin's (Caudecus's Manor or The Ruined City of Arah), Carrion (Citadel of Flame or Sorrow's Embrace), Magi's (Honor of the Waves or Twilight Arbor), or Sentinel's (Ascalonian Catacombs or Crucible of Eternity) attribute combinations. You can also buy from the WvW Laurel Merchant, which costs more Badges of Honor but fewer laurels. These stats are generally the easiest to acquire. It's also good enough for everything other than high-level fractals. Achievements Some story steps and achievements provide ascended gear as a reward. If you play PvP or WvW, you can also get the map currencies from the appropriate reward tracks. Ascended gear can be upgraded with agony infusions, which provide the agony resistance needed to survive high-level fractals. You can't equip multiple copies of Unique ascended trinkets. If you want to keep runes, sigils, or infusions, you'll have to extract them with an Upgrade Extractor or Infusion Extraction Device. Note that this is effectively destroying and recreating the ascended piece, so you'll lose any upgrades that were inside it. If you don't know what build to aim for, here are some useful resources: Open World Fractal Raid WvW Equipment can be acquired from many different sources in this game. To make more, you'll need to complete the Heart of Thorns story on additional characters, and spend about 30 gold crafting the components for each new weapon. Heart of Thorns Pack Backpieces For playing through the Heart of Thorns story and completing the Agent's Pack, Crusader's Pack, or Scholar's Pack collection, you get a backpiece with certain Core/Release or Core/Extended stats. Path of Fire Blazing a Trail: Provides a Marshal's backpiece with certain Core/Release or Core/Extended stats. and sigils are account bound and only available through crafting, such as . These are the same rings sold by the Laurel Merchant, except they only cost 10 Pristine Fractal Relics each. New fractal players should aim for +9 Agony Infusions, as equipping 15 +9 infusion, and 1 +7 infusion, and 1 +7 infusion is enough to reach 150 agony resistance. Ascended equipment is Account Bound, not Soulbound. Story Mastery Achievements Some story achievements provide an ascended trinket when complete: Living World Season 2 Heart of Thorns: Act IV Mastery: Commander's, Minstrel's, Trailblazer's, Vigilant, Viper's, or Wanderer's amulet Note that this requires the difficult achievement Migraine. However, getting them with laurels is not recommended as Pristine Fractal Relics are even cheaper. This lets you stat swap any ascended weapon or armor piece, including named weapons and armor pieces you get from achievements. Raids If you do PvE raids, you can buy ascended equipment from the Basic Magnetite Exchange Operative for magnetite shards. This is one of the worst and most expensive options available, but as there aren't that many ways to get Path of Fire trinkets as of this writing, it's included for the sake of completeness. Core/Release stats were included at release stats were included at release stats were included at release. The first ascended weapon is free (only requiring ascended weapons have a limited selection of stats but can be stat swapped in the Mystic Forge. This is more cost-effective than buying them with laurels, as guild commendations aren't really used for anything else. Grandmaster Marks and use them to buy ascended gear. If you play WvW or ranked PvP you can also get the occasional Box of Grandmaster Marks from reward chests. This is useful if you aren't planning to slot infusions into your rings. Ascalonian Catacombs: Soldier's, Magi's, or Rampager's Caudecus's Manor: Rabid, Rampager's Caudecus's Manor: Rabid, Rampager's Caudecus's Manor: Rabid, or Rampager's Caudecus's Manor: Rabid, Rampager's Caudecus's Manor: Rabid, or Rampager's Rabid, or Rabid Citadel of Flame: Berserker's, Carrion, or Rampager's Honor of the Waves: Magi's, Rabid, or Soldier's Crucible of Eternity: Berserker's, Dire, or Rampager's The Ruined City of Arah: Berserker's, Knight's, or Rabid Ascalonian Catacombs, Twilight Arbor (non-Aetherpath), and Crucible of Eternity are the easiest dungeons for inexperienced players to tackle. However, collecting a Mystic shield or staff, or a Mordant axe, dagger, or sword, will fulfill the requirement for two collections at once. Don't search directly for the prefix, as that will only show you crafted gear. The following Mystic Forge recipe is used to infuse rings: Backpieces have inconsistent Mystic Forge recipes and are also fairly expensive to infuse (about 30 gold + a Gift of Ascension). Story Rewards Some story victory or Death: Provides a Berserker's, Knight's, or Rabid head. Not recommended unless you're already an experienced PvE player or you can get some experienced friends to carry you. This means you can freely move ascended weapons and trinkets between characters, and ascended armor between characters that wear the same weight of armor. Arah is grueling and not recommended for the faint of heart. This process will also cease to count as the original item for some purposes such as forging legendary armor. 3. This vendor sells trinkets with Apothecary, Berserker's, Cavalier's, Cavalier's, Rabid, Rampager's, and Soldier's stats. When upgrading from exotic gear, you should upgrade your weapon first, followed by your trinkets, as most of your stats are in these items. Use one ring that is infused or attuned (see "Infusing and Attuning Equipment" below) and one ring that isn't. Crafting a full set of ascended armor and weapons will set you back 200-400 gold depending on the exact stats and how many Badges of Honor you have, this may or may not be a better deal than buying them off the Trading Post. Ascended Equipment differs from exotic equipment in three crucial aspects: 1. You're Reading a Free Preview Pages 26 to 35 are not shown in this preview. Living World Season 4 Icebrood Saga Laurels Another way to get ascended trinkets with Core/Release stats is to buy them from the Laurel Merchant. You'll also need the right materials, either acquired through farming or the Trading Post. Path of Fire Crafting is an expensive but reliable way to get ascended armor and weapons. WvW Stat Infusions WvW Laurel Merchants and Skirmish Supervisors sell stat infusions for WvW currency. One vendor in each game mode sells the recipes for Grandmaster Marks, and also accepts them as a currency: This costs around the same as crafting the items normally, but is much more convenient than farming rare/account bound materials. This stat combination was retroactively added in Path of Fire to both Heart of Thorns and Path of Fire gear, so it requires either Heart of Thorns or Path of Fire. Core/Extended stats were added during Living World Seasons 1 and 2. Agony Infusions are relatively straightforward to acquire. Living World The single best way to get ascended trinkets is through the Living World maps. Check the wiki to see which recipe is required to infuse your ascended backpiece. Other than Marauder and Crusader, these stats require the Heart of Thorns expansion.
